ENERGY FLOW® PRACTITIONER AUDIT

This document is an audit of all the exercises taught during the Energy Flow® program. The three columns (acknowledged/grasped/mastered) of this audit represent three stages in learning:

1. **Acknowledged** means you have been made aware of something and taken note of it, but you may still be unsure of it and therefore need more study or practice time.
2. **Grasped** means you understand something, but you may struggle to explain it well when you talk about it to someone else, or you may need to look up part of it.
3. **Mastered** means you know and understand sufficiently well to explain it to someone else, usually from memory.

Tick whichever of the three columns applies when you self-assess.
